PIONEERING SOLUTIONS FOR TRANSPORT ASSIGNMENTS IN THE AIR AND ON THE WATER

Through our global network, we are the ideal partner for efficient and cost-effective transport assignments in the **air and on the sea**. Not only in Europe, but also around the world, we have numerous branches. **Our presence at all important trading places and ports makes** it possible for us to **individually serve our customers on site** and to precisely address regional requirements and special characteristics.

Efficiency and cost-effectiveness determine every movement of transport – identifying potential and precise knowledge of our regional partners make JCL quick and capable of acting with maximum reliability. In addition, modern, intermodal solutions are required that perfectly interlock and form a harmoniously integrated logistics system.

With our transport solutions in the air and on water, we offer a full-service logistics system that implements global transport processes in a modern, efficient and ecological manner - we bear the responsibility for your product along the entire supply chain.

**INCREASING RESULTS,
IDENTIFYING POTENTIAL**

RELIABLY OVER WATER AND THROUGH THE AIR

INDIVIDUAL LOGISTICS SERVICES FOR INTERNATIONAL TRANSPORT ASSIGNMENTS BY AIR AND SEA FREIGHT

Network

Our global network creates an efficient, flexible infrastructure.

Expertise

Every order benefits from decades of experience and extensive specialist know-how.

Open option

Open communication of all variable criteria of an order, joint planning for the benefit of cost efficiency.

Our international transport solutions by air and sea freight and the associated individual logistics services create specific expertise and understanding of the respective market requirements. The basis for this is a strong global network of own branches, the close collaboration with partner companies and a modern and efficient IT system.

With transport assignments by sea, we work with selected shipping companies that have proven their worth in years of collaboration. In the event that there are several possibilities in the selection of the carriers and/or transport route, we will inform you about all available variants.

All relevant criteria – from costs over the term to the selection of the transport partners – are presented in a transparent manner in order to make the decision making easier for you. As a competent partner we are pleased to assist and advise you.

**DEVELOPING SOLUTIONS,
LIVING TRANSPARENCY**

DIVERSE SOLUTIONS

OUR AIR & OCEAN TRANSPORT MANAGEMENT TAKES YOUR GOODS TO THE DESTINATION RELIABLY AND ON TIME. EFFICIENT AND ECOLOGICAL, IN THE AIR AND ON THE WATER.

Track & Trace

Global tracking of all products in real time.

Duty of care

The value of your product is always protected by the greatest of care.

Customs clearance

We take over all administrative tasks with cross-border transport.

System flexibility

JCL has capacities for collaboration with all known logistical systems.

Risk minimisation

Maximum security is guaranteed at all times through interface minimisation and optimised packaging.

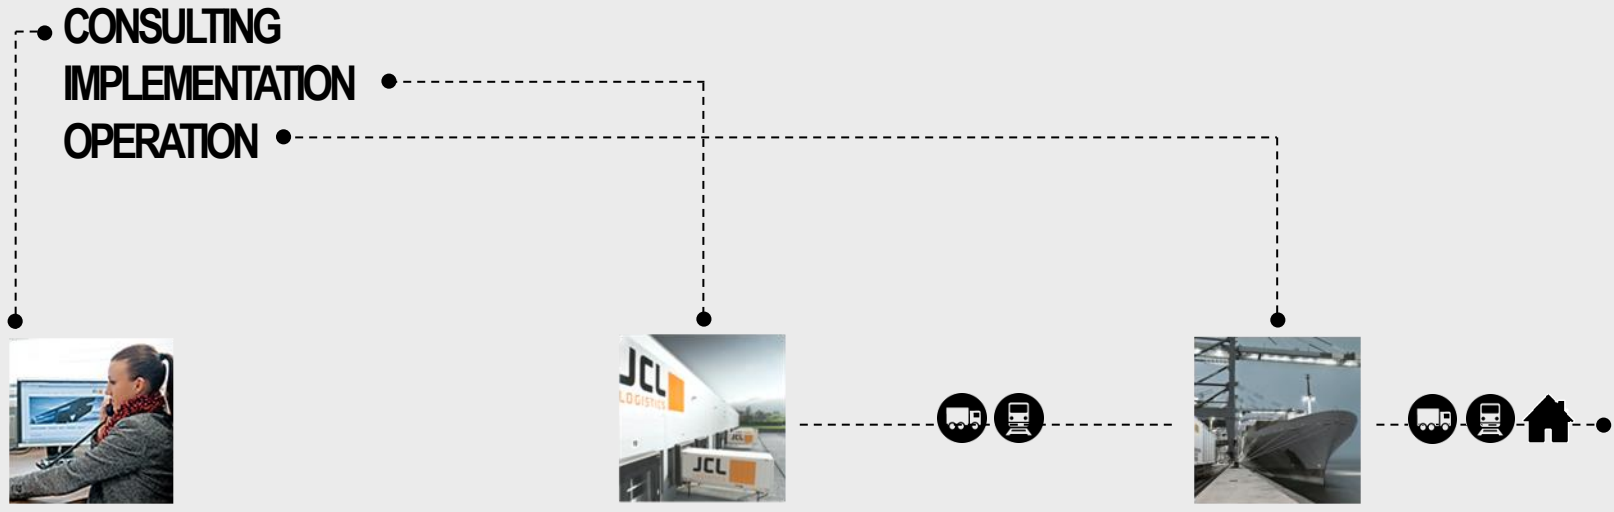

Years of experience, know-how and our global network guarantee reliable and efficient transport by air and sea.

With our own NVOCC **"Orange Ocean Line"** and long-standing partnerships with shipping companies we offer customised logistics solutions. Also over long distances, our JCL air and sea freight experts ensure with the aid of state-of-the-art systems around the clock that your goods reach their destination reliably, cost-effectively and on time. Our links to **global carriers** as well as access to **specialised niche providers** also make it possible for us to transport special goods (e.g. heavy and special transport assignments). We provide you with the best solution with specific equipment.

With, for instance, **project-based transport assignments**, the most precise scheduling and a high degree of logistical know-how are required. In order to meet these high requirements, we only work with selected **carriers** so that potential sources of error can be eliminated.

With the **JCL Track & Trace IT system** our customers always have the information relevant for them in real time. As a result of the constant expansion of our network, we are able to respond quickly to changes caused by the global economy and to adapt delivery destinations accordingly.

Consulting: With in-depth know-how, we optimise the supply chains of our customers and ensure smooth transport chains. Precise planning, organisation and implementation of transport services for air and sea freight.

Implementation: Our transport solutions in the Air & Ocean sector offer tailor-made customised solutions. **Full or less container loads (FCL, LCL), active and global space allotment management, cross trade management, project management and consolidation** – depending on requirements. Use of the full service portfolio at all JCL companies.

Operation: Strategic transport solutions and well-thought-through IT system connection and extension.

With our individual logistics solutions and our tailor-made customer solutions

- we create:
- Transparency in the value chain
 - Cost efficiency
 - "Just in time" deliveries

OUR AREAS OF COMPETENCE FOR YOUR SUCCESS

Customer care

The individual requirements of our customers are included in the planning for each process.

One-face communication

One point of contact expertly looks after your project from start to finish.

Quality assurance

We constantly improve our service through strict quality management and customer surveys.

JCL LOGISTICS
QUICK AND EFFICIENT,
AROUND THE GLOBE

We always work in a highly professional manner – for instance, our logistics solutions in the area of Air & Ocean offer optimum transport conditions and take your goods quickly and safely to their required destination.

With our focus Asia – Europe ↔ Europe – Asia, we are also represented in the logistics sector at international level. Our optimised port concept (southern and north-west Europe) and our innovative transport solution of traditional sea and air freight create a high degree of flexibility and collaboration with reliable, competent partners.

Our network in European ports such as Koper, Trieste, Hamburg, Bremerhaven and Rotterdam and the excellent forward carriage and on-carriage option by rail offer scheduled block trains for large volumes of goods in containers and thus offer secure access to the purchasing chain and concept optimisation. The tracking of consignments via Track & Trace and data exchange are done using state-of-the-art systems.

We integrate multimodal transport solutions – Our containers with various specifications offer customised solutions that cover all aspects of supply chain management (from warehousing, dispatch to delivery).

JCL AIR & OCEAN – FAST, EFFICIENT AND PROFESSIONAL

Transport management: Our transport management for Air & Ocean takes your goods around the globe to their destination **reliably and on time**. An efficient interface management ensures **further transport without delay**. We are the specialist for all transport assignments by air and sea.

Services: Our Air and Ocean logistics extends from collective containers to **45-foot containers**. We also offer **container port logistics** and the **handling at airports and ports**. Due to our global network and sales centres JCL Logistics guarantees an **effective, flexible infrastructure** and creates new capacities and consignment volumes for individual customer requirements. We link special services from our service portfolio with regard to industries and logistical tasks.

Cost-efficient transport solutions: Long-standing and satisfied customers are in the interest of JCL Logistics. An open communication of all variable criteria of an order and a joint planning facilitate time-saving logistics solutions in favour of cost efficiency – Your requirements and our reliability are the most important criteria for us. **"WE TREAT OUR CUSTOMER'S MONEY AS IF IT WAS OUR OWN"**

JCL is certified according to the following standards: **ISO 9001** (quality management), **ISO 14001** (environmental management), **ISO 18001** (occupational safety and health protection), **SQAS** (safety and quality assessment), **AEO** (Authorised Economic Operator).

Customs clearance: We are highly familiar with customs clearance processes with **cross-border consignments**. We deal with all the **administrative tasks** that occur and handle **customs clearance** in a professional manner.

Track & Trace within product logistics processes: We create **efficient product tracking** – verification through **seamlessly documented history of goods** with **Track & Trace** also within the product logistics processes.

INDIVIDUAL SERVICES

Duty of care

JCL handles all goods with the greatest of care at all times. From handling to loading and the careful compliance with safety provisions; with each process, JCL handles the products of the customers with great care.

Expertise

We have extensive knowledge relating to the logistics for the Retail, Automotive, Health & Pharmaceutical, Chemical, Industry, FMCG and Drinks Logistics sectors. Our high specialist expertise comes firstly from our years of experience and our growing with our customers. Secondly, our healthy growth is also an enrichment for our expertise.

One-face communication

We ensure that our customers are not passed from one contact person to the next. With a central scheduler who organises and coordinates the services and forges new paths together with our customers, we reduce complexity.

Customs clearance

We are highly familiar with customs clearance processes with cross-border transport assignments. We deal with all the administrative tasks that occur and handle customs clearance in a professional manner.

Network

The logistics sector is a complex field with numerous participants. For our logistics services, we only use the best partners and do not make any compromises. It is part of our responsibility to use partners with high specialist expertise and suitable equipment. We have years of knowledge of the logistics market and know which carriers comply with our standards and can meet the requirements of our customers.

Quality and quantity

In the right quantity and in the right condition; we avoid delaying and problematic circumstances from the outset. The testing of quality and quantity is carried out by us in a professional manner. In the process, you will be permanently notified of the condition of your goods using detailed, IT-based reporting.

Track & Trace

JCL keeps you constantly informed about the status of your consignment. With modern Track & Trace systems and, on request, also by personal notification. Here, an employee accompanies your consignment from the creation of requirements until the completion of delivery so that you can concentrate in full on your core business.

Customer care

Both with classical transports and with comprehensive involvement in the entire supply chain – JCL sees its role not only as a pure service provider but also as a committed partner to its customers. Great interest and detailed know-how of our employees about the respective sector and/or the goods to be transported also make JCL a logistics partner for you that you can rely on.

Quality assurance

We meticulously comply with statutory provisions and requirements of our customers. For us, sector-relevant certifications and quality management are the standards; in the process, we also impose strict rules on ourselves in order to be a reliable and competent partner for our customers.

Risk minimisation

When selecting the transport partners and routes, we strive to keep risk as low as possible. Due to our long-standing close collaboration with truck operators, railway companies, shipping companies and airlines, we find the optimum transport solution for you at all times. Together with reliable partners around the world, the experienced employees at JCL ensure that your goods arrive at their destination safely and in a timely manner.

Open option

We find the best transport for you at all times. In the event that there are several possibilities in the selection of the carriers and/or transport route, we will inform our customer about the different variants. From the costs over the term to the selection of the transport partner – we offer transparent and easily comparable solutions. As a competent partner with a wealth of experience, we are on hand to advise our customers.

System flexibility

Highly networked and automated industries require modern and flexible logistics solutions. Perfect communication plays a decisive role here. At JCL standardised IT system and customer solutions with direct connection to the customer as well as the great personal commitment of the employees ensure a prompt and precise flow of information between the partners – around the clock and worldwide.

ECOLOGICAL RESPONSIBILITY OUT OF CONVICTION

GLOBAL BENEFITS

WE IMPLEMENT ECOLOGICAL
SUSTAINABILITY WORLDWIDE

Sustainable and ecologically aware activities are a major concern of ours. With regard to the current environmental situation, particularly the logistics industry has to take measures in order to meet its ecological responsibility. We have a modern fleet of EURO 6 trucks, use green power for rail transport and are constantly searching for environmentally friendly possibilities to optimise our services.

We use potential to work in an ecological manner, day in, day out, and combine measures from diverse areas in an expedient manner.

- On request, we offer our customers ecologically optimised transport variants (active CO₂ exhaust gas minimisation).
- We attach importance to ecologically optimised processes in transport and storage.
- Intermodal transport, maximum utilisation of means of transport and avoidance of empty kilometres are standard at our company.
- On request, we offer the measurement of greenhouse gas emissions and energy consumption of transport services.
- Intelligent route planning and optimum use of resources help the environment and our customers.
- We are on the best way to having all JCL branches certified according to ISO 14001.
- Permanent search and usage of location-based, environmentally friendly possibilities. For example, in Switzerland, we use 100 % hydro power.
