

AUTOMOTIVE

INDIVIDUAL TRANSPORT SOLUTIONS
FOR THE AUTOMOBILE

JCL
LOGISTICS

JCL – AUTOMOTIVE

WITH MAXIMUM AUTOMATION OF ALL SUPPLY PROCESSES AND INDIVIDUAL CONCEPTS, JCL SOLVES EVERY LOGISTICAL CHALLENGE IN THE AUTOMOTIVE SECTOR

Just in time

Reliable and timely delivery to the assembly line.

Transparent communication

Optimum flow of information around the clock by means of standardised IT info systems.

Flexible special trips

Flexible special trips in order to prevent an unexpected stop to production or a supply bottleneck in exceptional situations.

REAL SECTOR SOLUTIONS,
CUSTOMISED FOR THE
AUTOMOTIVE INDUSTRY

OUR EXPERTISE:

- Knowledge and understanding of the requirements of the automotive industry
- Product-specific, optimised haulage processes
- Cross-sector solutions in the automotive sector (warehousing, handling and shipment)
- Network in Europe and Asia as well as forward carriage and on-carriage option by HGV, rail cargo transportation and transport by air and sea

We use potential to work in an ecological manner, day in, day out, and combine measures for consumer goods with a high handling speed in an expedient manner.

OUR SERVICE:

- Modern forward carriage concepts
- Product logistics concept with value added service
- Special transport containers and protection
- JCL Track & Trace – seamless consignment tracking

SCOPE OF PERFORMANCE

Consulting: With in-depth know-how, we optimise the supply chains of our customers and ensure smooth transport chains. Precise planning, organisation and implementation of transport services for the **automotive sector**.

Implementation: Our JCL logistics systems in the areas **Road, Rail, Air & Ocean** and **JCL Plus⁺ – contract logistics & warehouse management** offer tailor-made customer solutions. With our JCL industry solutions, we handle **automotive products at national and international level** and at the same time also offer access to our global network. With all consignments transported by truck, highly modern vehicles are used that are characterised by low consumption and **low emissions** (EURO 6).

Operation: Strategic transport solutions and well-thought-through IT system connection and extension.

With our individual logistics solutions and our tailor-made customer solutions

we create:

- Transparency in the value chain
- Cost efficiency
- "Just in time" deliveries

JCL AUTOMOTIVE – LOGISTICS PERFECTION AT THE ASSEMBLY LINE

Customised transport solutions: As the **automotive sector** is characterised by a great diversity of product variants, coupled with fluctuating production volume at the same time, each supply chain must meet high standards with regard to **quality and flexibility**. As a car manufacturer or supplier, you can rely on our **global network** for your **consignments** and your **supply chain**. Our **industry solutions** ensure that your components and vehicles reach their destination reliably and promptly.

Services: Professional storage of automotive products – we offer **all storage methods** – from **simple block storage** to **fully-automatic high-bay warehouse**. For different requirements of the individual sectors **we combine** different **warehousing techniques** such as **pallet racks or automatic small parts store** (OSR shuttle) and **paternoster warehouses** (manually, partially automated or fully automated operation) to form a coherent overall solution. We also offer **small load carrier management** and **VDA message standards**.

Cost-efficient transport solutions: Long-standing and satisfied customers are in the interest of JCL Logistics. An open communication of all variable criteria of an order and a joint planning facilitate time-saving logistics solutions in favour of cost efficiency – your requirements and our reliability are the most important criteria for us. **"WE TREAT OUR CUSTOMER'S MONEY AS IF IT WAS OUR OWN"**

JCL is certified according to the following standards: **ISO 9001** (quality management), **ISO 14001** (environmental management), **ISO 18001** (occupational safety and health protection), **SQAS** (safety and quality assessment), **AEO** (Authorised Economic Operator).

Customs clearance: We are highly familiar with customs clearance processes with **cross-border consignments**. **We deal with all the administrative tasks** that occur and handle **customs clearance** in a professional manner.

JCL – Green Logistics: We constantly strive to create **sustainable, environmentally friendly and resource-efficient logistics processes**. Our goal is to create both an **economic as well as an ecological balance** in order to acquire long-term company value – **CO₂ record**.
