JCL stands for **efficient transport** and **innovative intermodal logistics solutions**. With all consignments, you have the possibility of obtaining **transport and customs services from one source**. Through our precise knowledge of the industry and its boundary conditions, we offer our customers **professional customs handling** for a smooth transport procedure.

The area of **handling – customs clearance – bonded warehouse** plays an important role in our industry. There is also an increasing demand for innovative solutions that meet the growing complexity of the requirements whilst complying with market-specific boundary conditions. The intelligence of modern logistics lies in the balance between the enormous cost pressure in global competition and the compliance with global quality standards.

Through the intelligent linking of the means of transport, our **own customs infrastructure** as well as the **contact to our partners** and the local international authorities coupled with a **precise knowledge in the area of customs procedures**, we create a **correct customs handling** in compliance with current regulations.

Our experts ensure smooth handling worldwide – from simple imports to active finishing, so that your consignment can be transported across borders quickly and easily.

HANDLING AND CUSTOMS CLEARANCE

INDIVIDUAL CUSTOMS SERVICES FOR NATIONAL AND INTERNATIONAL CONSIGNMENTS

CUSTOMS CLEARANCE

Own customs infrastructure and partners

at the border crossings from and to CH/DE/AT/FR and IT for import and export handling as well as transit handling.

Efficient, competent handling

of all customs processes – correct customs handling in compliance with current regulations. Quality monitoring through an internal control system.

Professional support with customs issues

Our experts will advise you in all customs-relevant issues and will provide you with support.

Approved forwarder and recipient

in Basle, Thayngen/Schaffhausen and St. Margrethen as well as AEO certification.

Fiscal representations in Germany and Austria

The fiscal representation of JCL gives your company the possibility of carrying out transactions in EU countries in a straightforward and secure way.

JCL is a specialist and experienced partner both for **import and export handling** as well as for **transit handling**, shown by its **own customs infrastructure** and the central HUBs near to the border in Switzerland, Germany, Austria, France and Italy.

For consignments and their customs handling, we collaborate with **experienced partners worldwide**. Through the precise knowledge of the industry and its boundary conditions, we are able to facilitate an **efficient, competent handling of all customs processes for our customers** that can be provided as an **integral part of the transport solutions** or as a **customs clearance only order**. When selecting the partners, we strive to minimise potential risks and high costs.

As we have the customs status "**approved recipient and forwarder – EZ/EV**" in Switzerland (**Basle, Thayngen/Schaffhausen and St. Margrethen**) and also meet the high requirements of the **AEO certification** with the **AEO-Status** (highest safety level) and have **fiscal representations** in Germany and Austria, we can obtain repeat comprehensive inspections and permits for customs procedures of commercial importance and other simplified procedures **within the entire European Union**. Your goods can thus also be handled outside of customs office hours if an appointment is made beforehand; in Austria, they can even be handled around the clock!

CROSSING BORDERS CREATING FLEXIBILITY

A close-up photograph of a computer keyboard. A finger is pressing a prominent red key that has the words "CUSTOMS DECLARATION" printed on it in white, uppercase letters. The key is positioned between a white "enter" key above and a white "control" key below. To the right of the red key is another white key with "alt" printed on it. The background shows other white keys, including one with a bracket and underscore symbol. The lighting is bright, highlighting the textures of the keys and the skin of the finger.

ECOLOGICAL RESPONSIBILITY OUT OF CONVICTION

GLOBAL BENEFITS

WE IMPLEMENT ECOLOGICAL
SUSTAINABILITY WORLDWIDE

Sustainable and ecologically aware activities are a major concern of ours. With regard to the current environmental situation, particularly the logistics industry has to take measures in order to meet its ecological responsibility. We have a modern fleet of EURO 6 trucks, use green power for rail transport and are constantly searching for environmentally friendly possibilities to optimise our services.

We use potential to work in an ecological manner, day in, day out, and combine measures from diverse areas in an expedient manner.

- On request, we offer our customers ecologically optimised transport variants (active CO₂ exhaust gas minimisation).
- We attach importance to ecologically optimised processes in transport and storage.
- Intermodal transport, maximum utilisation of means of transport and avoidance of empty kilometres are standard at our company.
- On request, we offer the measurement of greenhouse gas emissions and energy consumption of transport services.
- Intelligent route planning and optimum use of resources help the environment and our customers.
- We are on the best way to having all JCL branches certified according to ISO 14001.
- Permanent search and usage of location-based, environmentally friendly possibilities. For example, in Switzerland, we use 100 % hydro power.
