SCOPE OF PERFORMANCE

Consulting: With in-depth know-how, we optimise the supply chains of our customers and ensure smooth transport chains. Precise planning, organisation and implementation of transport services for the **retail sector**.

Implementation: Our JCL logistics systems in the areas **Road, Rail, Air & Ocean** and **JCL Plus⁺ – contract logistics & warehouse management** offer tailor-made customer solutions. With our JCL industry solutions, we handle **consumer goods at national and international level** and at the same time also offer access to our global network. With all consignments transported by truck, highly modern vehicles are used that are characterised by low consumption and **low emissions** (EURO 6).

Operation: Strategic transport solutions and well-thought-through IT system connection and extension.

With our individual logistics solutions and our tailor-made customer solutions

we create:

- Transparency in the value chain
- Cost efficiency
- "Just in time" deliveries

JCL FMCG – EVERYTHING FOR YOUR FLOWS OF GOODS

Customised transport solutions: Due to our many years of sector expertise, based on the requirements of the **FMCG sector** (permanent cost and productivity pressure), we have developed **customised logistics solutions**. We optimise your **entire supply chain** end to end and offer a pool of **individual services**. In addition to professional **storage** we offer you **all warehousing methods**, the transport of **piece goods** and also Europe-wide **partial and complete loads** (e.g. ambient Food, commodity goods). We create efficient **product tracking – verification** through seamlessly documented history of goods with Track & Trace also within the product logistics processes.

Services: Professional storage of food and products – we offer **all storage methods** – from simple **block storage** to **fully-automated high-bay warehouse system**. For different requirements of the individual sectors **we combine** different **warehousing techniques** such as **pallet racks** or **automatic small parts store** (OSR shuttle), and **paternoster warehouses and hanging goods racks** (manually, partially automated or fully automated operation) to form a coherent overall solution.

Cost-efficient transport solutions: Long-standing and satisfied customers are in the interest of JCL Logistics. An open communication of all variable criteria of an order and a joint planning facilitate time-saving logistics solutions in favour of cost efficiency – your requirements and our reliability are the most important criteria for us. **"WE TREAT OUR CUSTOMER'S MONEY AS IF IT WAS OUR OWN"**

JCL is certified according to the following standards: **ISO 9001** (quality management), **ISO 14001** (environmental management), **ISO 18001** (occupational safety and health protection), **SQAS** (safety and quality assessment), **AEO** (Authorised Economic Operator).

Customs clearance: We are highly familiar with customs clearance processes with **cross-border consignments**. **We deal with** all the **administrative tasks** that occur and handle **customs clearance** in a professional manner.

JCL – Green Logistics: We constantly strive to create **sustainable, environmentally friendly and resource-efficient logistics processes**. Our goal is to create both an **economic as well as an ecological balance** in order to acquire long-term company value – **CO₂ record**.
