SCOPE OF PERFORMANCE

Consulting: With in-depth know-how, we optimise the supply chains of our customers and ensure smooth transport chains. Precise planning, organisation and implementation of transport services for the **health & pharmaceutical sector**.

Implementation: Our JCL logistics systems in the areas **Road, Rail, Air & Ocean** and **JCL Plus⁺ – contract logistics & warehouse management** offer tailor-made customer solutions. With our JCL industry solutions, we handle **health & pharmaceutical products at national and international level** and at the same time also offer access to our global network. With all consignments transported by truck, highly modern vehicles are used that are characterised by low consumption and **low emissions** (EURO 6).

Operation: Strategic transport solutions and well-thought-through IT system connection and extension.

With our individual logistics solutions and our tailor-made customer solutions

we create:

- Transparency in the value chain
- Cost efficiency
- "Just in time" deliveries

JCL HEALTH & PHARMACEUTICAL – TRANSPORTING HEALTH

Customised transport solutions: Systematic **attention and experience** are our companions in the **health & pharmaceutical sector**, through which we safely transport products with diverse specifications. **We transport and store packed products, raw materials and equipment of the health sector.** The diverse spectrum includes, for instance, **temperature-sensitive drugs** and **packed semi-finished goods** in the form of granulates. They all require specific procedures for transport and storage with regard to temperature management or air conditioning. Highly sensitive **medical devices** are also transported by us using specially spring-loaded semi-trailers. With these services, we abide by the **statutory guidelines** and **country-specific requirements**. Our **quality management system** and the application of **industry standards** are also used at our company.

Services: Professional storage of health and pharmaceutical products – we offer **all storage methods** – from simple **block storage** to **fully-automated high-bay warehouse system**. For different requirements of the individual sectors **we combine** different **warehousing systems** such as **pallet racks** or **automatic small parts store** (OSR shuttle) – manually, partially automated or fully automated and temperature-managed (in accordance with the **GSP guidelines**).

Cost-efficient transport solutions: Long-standing and satisfied customers are in the interest of JCL Logistics. An open communication of all variable criteria of an order and a joint planning facilitate time-saving logistics solutions in favour of cost efficiency – your requirements and our reliability are the most important criteria for us. **"WE TREAT OUR CUSTOMER'S MONEY AS IF IT WAS OUR OWN"**

JCL is certified according to the following standards: **ISO 9001** (quality management), **ISO 14001** (environmental management), **ISO 18001** (occupational safety and health protection), **SQAS** (safety and quality assessment), **AEO** (Authorised Economic Operator).

Customs clearance: We are highly familiar with customs clearance processes with **cross-border consignments**. **We deal with** all the **administrative tasks** that occur and handle **customs clearance** in a professional manner.

JCL – Green Logistics: We constantly strive to create **sustainable, environmentally friendly and resource-efficient logistics processes**. Our goal is to create both an **economic as well as an ecological balance** in order to acquire long-term company value – **CO₂ record**.
