### Intelligent solutions

Proactive solutions for all special contingencies within the framework of the order.

### Special transport assignments

Special solutions for heavy goods or large-dimensioned machines, around the world down to the last mile.

REAL SECTOR  
SOLUTIONS, CUSTOMISED  
FOR INDUSTRY

### OUR EXPERTISE:

- Knowledge and understanding of the requirements of the industry sector
- Product-specific, optimised haulage processes
- Cross-sector solutions in the industry sector (warehousing, handling and shipment)
- Network in Europe and Asia as well as forward carriage and on-carriage option by HGV, rail cargo transportation and transport by air and sea

We use potential to work in an ecological manner, day in, day out, and combine measures for consumer goods with a high handling speed in an expedient manner.

### OUR SERVICE:

- Modern forward carriage concepts
- Product logistics concept with value added service
- Special transport containers and protection
- JCL Track & Trace – seamless consignment tracking

• **CONSULTING**  
• **IMPLEMENTATION**  
• **OPERATION**

SCOPE OF PERFORMANCE

**Consulting:** With in-depth know-how, we optimise the supply chains of our customers and ensure smooth transport chains. Precise planning, organisation and implementation of transport services for the **industry sector**.

**Implementation:** Our JCL logistics systems in the areas **Road, Rail, Air & Ocean** and **JCL Plus<sup>+</sup> – contract logistics & warehouse management** offer tailor-made customer solutions. With our JCL industry solutions, we handle **heavy and special transport assignments at national and international level** and at the same time also offer access to our global network. With all consignments transported by truck, highly modern vehicles are used that are characterised by low consumption and **low emissions** (EURO 6).

**Operation:** Strategic transport solutions and well-thought-through IT system connection and extension.

**With our individual logistics solutions and our tailor-made customer solutions**

we create:

- Transparency in the value chain
- Cost efficiency
- "Just in time" deliveries

## JCL INDUSTRY – SIMPLE SOLUTIONS FOR HEAVY GOODS

**Customised transport solutions:** For the industry sector, we supply a large range of scalable transport solutions in the sectors: **wood, pulp & paper, steel, agricultural, turbines and heavy machines**. In international project business, JCL is your ideal partner for transport, particularly for **heavy goods** and transport assignments with an **exceptional requirements profile**. Our **global JCL network** is available to you **24 hours** a day, **365 days** a year. We supply solutions – from **microchips to complete industrial systems** and complete support from our team on site during the entire process.

**Services: Professional storage** of industry products – we offer **all storage methods** – from **simple block storage** to **fully-automated high-bay warehouse system**. For different requirements of the individual sectors **we combine** different **warehousing techniques** (**pallet racks, drive-in racks and push-through racks, storage of flat and long goods**) and the **necessary means of conveyance** such as **forklift trucks in different sizes and designs**. Depending on requirements, we use diverse **warehouse strategies and methods** e. g. **FIFO principle** (First In-First Out) or **LIFO principle** (Last In-First Out).

**Cost-efficient transport solutions:** Long-standing and satisfied customers are in the interest of JCL Logistics. An open communication of all variable criteria of an order and a joint planning facilitate time-saving logistics solutions in favour of cost efficiency – your requirements and our reliability are the most important criteria for us. **"WE TREAT OUR CUSTOMER'S MONEY AS IF IT WAS OUR OWN"**

**JCL is certified according to the following standards:** **ISO 9001** (quality management), **ISO 14001** (environmental management), **ISO 18001** (occupational safety and health protection), **SQAS** (safety and quality assessment), **AEO** (Authorised Economic Operator).

**Customs clearance:** We are highly familiar with customs clearance processes with **cross-border consignments**. **We deal with** all the **administrative tasks** that occur and handle **customs clearance** in a professional manner.

**JCL – Green Logistics:** We constantly strive to create **sustainable, environmentally friendly and resource-efficient logistics processes**. Our goal is to create both an **economic as well as an ecological balance** in order to acquire long-term company value – **CO<sub>2</sub> record**.
