EVERYTHING ON RAIL
TRANSPORT SOLUTIONS FOR RAIL TRANSPORT

JCL
LOGISTICS

IF YOU CAN THINK IT, WE CAN DO IT

JCL LOGISTICS

JCL LOGISTICS FORMS A LOGISTICAL NETWORK THAT ACTS IN A PRODUCT AND CUSTOMER-ORIENTED MANNER AND SOLVES EVERY CHALLENGE IN A TARGET-ORIENTED AND PROMPT WAY.

RAIL – EVERYTHING ON RAIL

RAIL

JCL TRANSPORT SOLUTIONS
CREATE THE BEST POSSIBLE
COST-EFFECTIVE SYNERGIES

INNOVATIVE TRANSPORT SOLUTIONS FOR RAIL TRANSPORT

JCL stands for integrated and sustainable solutions that make **system or project-related transport** assignments by rail possible through **innovative logistics systems** (special goods wagons) with **customised specifications** (longer, lighter, higher) and multimodal/multifunctional equipment.

We work with experienced railway companies and thus create integrated and specific transport solutions that are characterised by our know-how and our qualified specialist staff.

Efficiency and cost-effectiveness determine every movement of transport – discerning potential and precise knowledge of our regional partners make JCL quick and capable of acting with maximum reliability. In addition, modern, intermodal solutions are required that perfectly interlock and form a harmoniously integrated logistics system.

With our transport solutions in the rail transport sector, we offer a full-service logistics system that implements global transport processes in a modern, efficient and ecological manner - we bear the responsibility for your product along the entire supply chain.

**RECOGNISING REQUIREMENTS,
IMPLEMENTING PROJECTS**

INNOVATIVE – ECOLOGICAL – EFFICIENT

INDIVIDUAL TRANSPORT SERVICES FOR NATIONAL AND INTERNATIONAL RAIL TRANSPORT

Just in time

Reliable and on-time delivery to the assembly line.

Project-related goods

On-time and cost-efficient transport with all sizes of projects at all locations, worldwide.

Network

Our global network creates an efficient, flexible infrastructure.

Eco logistics

Green power for rail transport and the perfectly organised return of transport containers to the manufacturer conserve resources.

For our national and international transport solutions with trains and the associated **individual logistics services**, we offer specific areas of competence and understanding of the respective market requirements. Our strong global network of own branches, the close collaboration with partner companies and a modern and efficient IT system form the basis of our service portfolio.

For rail transport, we work with **experienced railway companies** worldwide. Through precise knowledge of the sector and its framework conditions, we are able to compile **modern** intermodal transport solutions for our customers; these solutions are characterised by high efficiency and conservation of the environment with regard to CO₂ emissions ("carbon footprint") and conservation of resources. When selecting the transport partners and routes, we strive to keep potential risks as low as possible.

All relevant criteria – from costs over the term to the selection of the transport partners – are presented in a transparent manner in order to make the decision making easier for you. As a **competent partner** we are pleased to assist and advise you.

EMPTY

EMPTY

**FORGING NEW PATHS,
EXCEEDING EXPECTATIONS**

DIVERSE SOLUTIONS

OUR RAIL CARGO TRANSPORT MANAGEMENT TAKES YOUR GOODS TO THE DESTINATION RELIABLY AND ON TIME. EFFICIENT AND ECOLOGICAL – ON THE ROAD

Expertise

Every order benefits from decades of experience and extensive specialist know-how.

Duty of care

The value of your product is always protected by the greatest of care.

Customs clearance

We take over all administrative tasks with cross-border transport.

System flexibility

JCL has capacities for collaboration with all known logistical systems

Track & Trace

Global tracking of all products in real time.

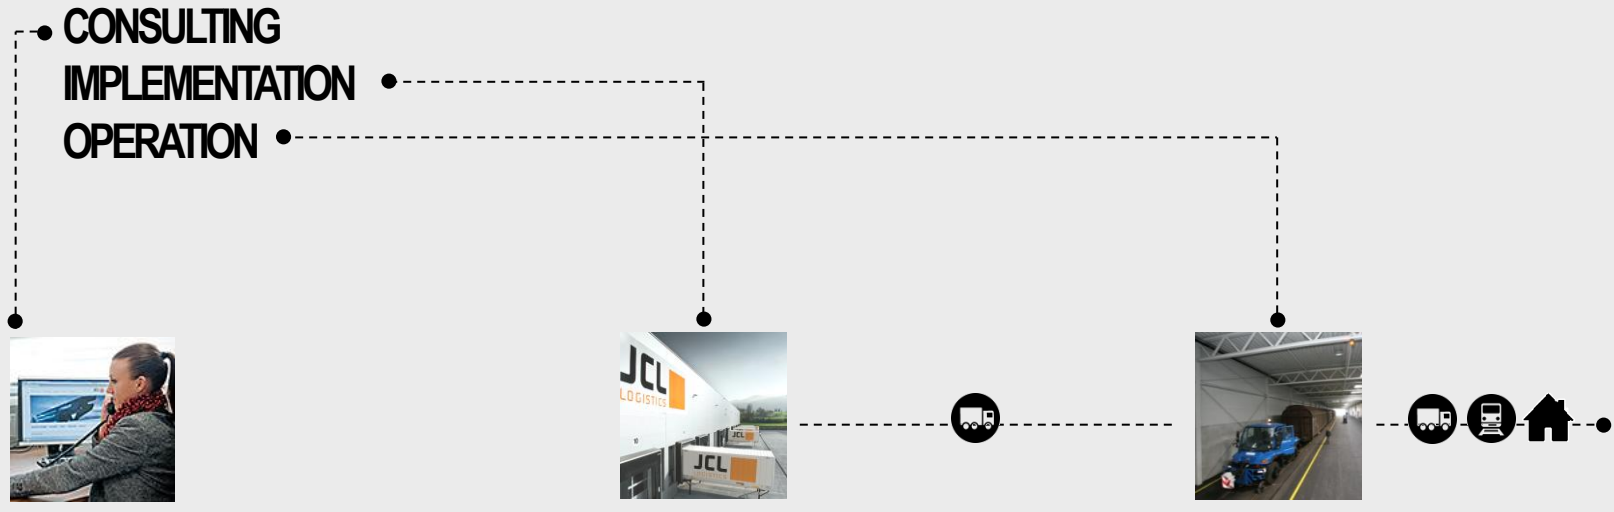

As the requirements of our customers are increasingly developing in the direction of **integrated and sustainable logistics solutions**, and JCL wishes to more than meet the requirement for maximum service quality in the rail transport sector, in addition to **long-standing collaboration with railway companies**, JCL also offers employees with **know-how** and industry experience, **its own terminals/partners** and a global network. We always offer the ideal transport solution for you.

We also strive to remain up-to-date from a technical perspective too. The wagons and containers used in our rail transport facilitate both **conventional** as well as **multimodal and multifunctional** rail transport. Access to **specialised niche providers** also makes it possible for us to transport special goods (e.g. heavy and special transport assignments). We provide you with the best solution with specific equipment.

With, for instance, **project-based transport assignments**, the most precise scheduling and a high degree of logistical know-how are required. In order to meet these high requirements, we only work with selected **carriers** so that potential sources of error can be eliminated.

With the **JCL Track & Trace IT system** our customers always have the information relevant for them in real time. As a result of the constant expansion of our network, we are able to respond quickly to changes caused by the global economy and to adapt delivery destinations accordingly.

Consulting: With in-depth know-how, we optimise the supply chains of our customers and ensure smooth transport chains. Precise planning, organisation and implementation of transport services for rail transport.

Implementation: Our transport solutions in the rail sector **offer tailor-made customer solutions. Sliding-wall wagons** covered with up to **80 Europa pallet places, container carrying wagons** open for **2 x 40'/45'** or **4x20'** containers, **flat or low-bed wagons** open for **special and project assignments** – depending on requirements. Use of the full service portfolio at all JCL companies.

Operation: Strategic transport solutions and well-thought-through IT system connection and extension.

With our individual logistics solutions and our tailor-made customer solutions

- we create:
- Transparency in the value chain
 - Cost efficiency
 - "Just in time" deliveries

OUR AREAS OF COMPETENCE FOR YOUR SUCCESS

Customer Care

The individual requirements of our customers are included in the planning for each process.

Transport protection

We have special equipment to transport your product securely.

Quality assurance

Through strict quality management and customer surveys we constantly improve our service.

JCL LOGISTICS
EFFICIENT AND
SUSTAINABLE AROUND
THE GLOBE

We always work in a highly professional manner – for instance, our logistics solutions in the area of rail transport offer optimum transport conditions and take your goods quickly and safely to their required destination.

With our focus Western Europe, Eastern Europe and Asia, we are also represented internationally in the logistics sector. Our optimised rail concept and our innovative rail transport solutions (conventional and combined rail transport – scheduled block trains for large volumes of goods) create high flexibility and partnerships with reliable, competent partners. Our containers with various specifications offer customised solutions that include all aspects of supply chain management (from storage to dispatch and delivery).

Our network in Europe and Asia and the excellent forward carriage and on-carriage option by road transport and transport by air and sea offer efficient conventional transport assignments on the road and rail as well as intermodal solutions and thus offer secured access to the procurement chain and concept optimisation. The tracking of consignments via Track & Trace and data exchange are done using state-of-the-art systems.

JCL RAIL – EFFICIENT, ECOLOGICAL AND COMPETENT

Transport management: Our transport management for rail transport takes your goods to their destination **in a reliable and timely manner**. An efficient interface management ensures **further transportation without delay**. We are the specialist for all rail transport assignments. We create efficient product **tracking – verification** through seamlessly documented history of goods with Track & Trace also within the product logistics processes.

Services: Our rail cargo logistics extends from **collective containers to 45-foot containers**. We also offer **container logistics and handling at airports and ports**. Thanks to our global network and sales centres, JCL Logistics guarantees an **effective, flexible infrastructure** and creates new capacities and consignment volumes for **individual customer requirements**. We link special services from our service portfolio with regard to industries and logistical tasks.

Cost-efficient transport solutions: Long-standing and satisfied customers are in the interest of JCL Logistics. An open communication of all variable criteria of an order and a joint planning facilitate time-saving logistics solutions in favour of cost efficiency – Your requirements and our reliability are the most important criteria for us. **"WE TREAT OUR CUSTOMER'S MONEY AS IF IT WAS OUR OWN"**

JCL is certified according to the following standards: **ISO 9001** (quality management), **ISO 14001** (environmental management), **ISO 18001** (occupational safety and health protection), **SQAS** (safety and quality assessment), **AEO** (Authorised Economic Operator).

Customs clearance: We are highly familiar with customs clearance processes with **cross-border consignments**. **We deal with** all the administrative tasks that occur and handle customs clearance in a professional manner.

JCL – Green Logistics: We constantly strive **to create sustainable, environmentally friendly and resource-efficient logistics processes**. Our goal is to create both an **economic as well as an ecological balance** in order to acquire long-term company value – **CO₂ record**.

THE JCL NETWORK

CREATES RELIABLE
TRANSPORT ASSIGNMENTS
THAT ARRIVE PRECISELY
ON TIME

WE NETWORK LOGISTICAL PROCESSES

A use of the correct IT systems means the simplification of processes, traceability, a faster response speed and a higher cost effectiveness. We make use of the possibilities of our system and network in order to make comprehensive optimisations to the work of our customers and our own. If these IT systems are not yet available at customers, we create and implement them.

Our comprehensive areas of competence:

- Global network of branches
- Quality-assured distribution network
- Customised logistics solutions
- Intermodal transport solutions
- Use of own network as a cost benefit
- Modern IT landscape for efficient and paperless order handling
- Own and flexible dispatch system
- Rapid data processing with high security and consistency
- User-friendly web connection and interfaces
- End-to-end Track & Trace

INDIVIDUAL SERVICES

Just in time

Due to the high degree of automation in automotive production, the time frames for the delivery of parts for vehicle production are extremely tight. Just-in-time deliveries directly to the production line are therefore standard today. In our long-standing close collaboration with the international automotive industry, we have always proven ourselves to be a committed partner who carries out deliveries reliably and on time.

Project-related goods

Very large projects such as the setting up of an entire industrial system including production systems place the highest demands on logistics: all parts have to be delivered in a timely manner and in precisely the order that is required for efficient assembly on site. With project-related goods, a competent selection of the transport partners and routes is just as vital as experience and a precise risk assessment.

Eco logistics

From intermodal solutions to transport assignments with a particularly small carbon footprint, JCL forges new paths for its customers, including away from well-trodden paths. Through precise monitoring of the market, careful selection of the carriers and intelligent linking of the means of transport, the specialists at JCL create innovative transport solutions that perfectly combine efficiency with the maximum possible environmental protection.

Network

The logistics sector is a complex field with numerous participants. For our logistics services, we only use the best partners and do not make any compromises. It is part of our responsibility to use partners with high specialist expertise and suitable equipment. We have years of knowledge of the logistics market and know which carriers comply with our standards and can meet the requirements of our customers.

Expertise

We have extensive knowledge relating to the logistics for the Retail, Automotive, Health & Pharmaceutical, Chemical, Industry, FMCG and Drinks Logistics sectors. Our high specialist expertise comes firstly from our years of experience and our growing with our customers. Secondly, our healthy growth is also an enrichment for our expertise.

Duty of care

JCL handles all goods with the greatest of care at all times. From handling to loading and the careful compliance with safety provisions; with each process, JCL handles the products of the customers with great care.

Customer Clearance

We are highly familiar with customs clearance processes with cross-border transport assignments. We deal with all the administrative tasks that occur and handle customs clearance in a professional manner.

Quality assurance

We meticulously comply with statutory provisions and requirements of our customers. For us, sector-relevant certifications and quality management are the standards; in the process, we also impose strict rules on ourselves in order to be a reliable and competent partner for our customers.

Track & Trace

JCL keeps you constantly informed about the status of your consignment. With modern Track & Trace systems and, on request, also by personal notification. Here, an employee accompanies your consignment until the completion of delivery so that you can concentrate in full on your core business.

Risk minimisation

When selecting the transport partners and routes, we strive to keep risk as low as possible. Due to our long-standing close collaboration with truck operators, railway companies, shipping companies and airlines, we find the optimum transport solution for you at all times. Together with reliable partners around the world, the experienced employees at JCL ensure that your goods arrive at their destination safely and in a timely manner.

System flexibility

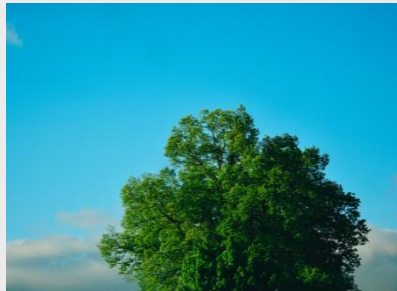

Highly networked and automated industries require modern and flexible logistics solutions. Perfect communication plays a decisive role here. At JCL standardised IT system and customer solutions with direct connection to the customer as well as the great personal commitment of the employees ensure a prompt and precise flow of information between the partners – around the clock and worldwide.

Transport protection

From shirts to pianos – we have the right equipment in order to transport your product safely and without damage. Another factor is our qualified personnel who know exactly what transport logistics requirements the products place on us.

ECOLOGICAL RESPONSIBILITY OUT OF CONVICTION

GLOBAL BENEFITS

WE IMPLEMENT ECOLOGICAL
SUSTAINABILITY WORLDWIDE

Sustainable and ecologically aware activities are a major concern of ours. With regard to the current environmental situation, particularly the logistics industry has to take measures in order to meet its ecological responsibility. We have a modern fleet of EURO 6 trucks, use green power for rail transport and are constantly searching for environmentally friendly possibilities to optimise our services.

We use potential to work in an ecological manner, day in, day out, and combine measures from diverse areas in an expedient manner.

- On request, we offer our customers ecologically optimised transport variants (active CO₂ exhaust gas minimisation).
- We attach importance to ecologically optimised processes in transport and storage.
- Intermodal transport, maximum utilisation of means of transport and avoidance of empty kilometres are standard at our company.
- On request, we offer the measurement of greenhouse gas emissions and energy consumption of transport services.
- Intelligent route planning and optimum use of resources help the environment and our customers.
- We are on the best way to having all JCL branches certified according to ISO 14001.
- Permanent search and usage of location-based, environmentally friendly possibilities. For example, in Switzerland, we use 100 % hydro power.

IF YOU CAN THINK IT, WE CAN DO IT

JCL LOGISTICS TAKES OVER THE RESPONSIBILITY
FOR THE PRODUCTS OF ITS CUSTOMERS ALONG
